Customer Service
Office is once
again open M-F
8:00AM - 4:30PM
(except Holidays).

ARE YOU PREPARED FOR A WATER EMERGENCY?

Earthquakes, Power Outages, Extreme Weather ...

September is National Emergency Preparedness Month, and October 19th is the "Great Shake-Out" event at the Tractor Supply parking lot in Yucca Valley (starting at 9AM). Come let the professionals show you why and how to prepare for a disaster!

HOW CAN I REDUCE MY WATER BILL?

Unseen or unfixed leaks can drip hundreds, even thousands of gallons of water wastefully down the drain. A little detective work several times a year can catch these water thieves in the act and put them out of circulation. The toilet is one of the most common water wasters but its leaks tend to be less noticeable than faucet leaks.

To determine if your toilet is leaking, look at the toilet bowl after the tank has stopped running into the bowl. If you still see or hear water running, your toilet is leaking. Leak detection dye tablets are available at the Agency upon request. Additionally, the Agency will provide at no charge a Water Awareness Survey to assist you in determining if you have a leak. Simply call our office at 364-2315 to request this service at no cost to you.
