

REQUEST FOR PROPOSALS (RFP)
FOR
DESIGN AND ENGINEERING SERVICES
FOR WATER WELL NO. 14

BIGHORN DESERT VIEW WATER AGENCY
Attn: Marina West, General Manager
622 Jemez Trail
Yucca Valley, CA 92284
mwest@bdvwa.org

KEY RFP DATES - Subject to change at discretion of the Bighorn Desert View Water Agency (BDVWA):

Issue Date:	January 12, 2026
BDVWA Project Manager:	Thomas Holliman, PE
Pre-Proposal Meeting (optional):	January 27, 2026
Deadline for Requests for Information:	February 6, 2026
Proposal Due Date:	February 16, 2026
Presentation/interviews (optional):	Will be notified if applicable
Anticipated Projected Award Date:	March 10, 2026

**ATTENTION: CONTRACTORS AND SUBCONTRACTORS MANDATORY
REQUIREMENT for
[DEPARTMENT OF INDUSTRIAL RELATIONS REGISTRATION](#)**

Contractors and subcontractors are required to be registered with the Department of Industrial Relations in order to 1) submit a bid or be listed on a bid for a public works project, or 2) work on a public works project awarded on or after April 1, 2015.

Application Process

Registration and renewal costs with DIR are \$400 and covers the fiscal year (July 1st – June 30th). Credit card payments can be processed within 24 hours, while other forms of payment may delay registration for up to eight weeks.

It is the Contractors responsibility to keep registration current with DIR.

- [Activate or renew your contractor registration](#)
 - [Instructions for completing the contractor registration and renewal application](#)
 - [Contractor registration training video](#)

Frequently Asked Questions

Who is required to register? Any Contractor or Subcontractor who bids on or performs work that requires the payment of prevailing wages under state law must be registered with DIR. This includes not only work performed by the building and construction trades, but also other types of work, including trucking, surveying, and testing, if that work is subject to prevailing wage requirements.

To be eligible Contractors and Subcontractors must:

- Be in good legal standing with no outstanding judgments or liens owed to workers or to the State of California.
- Not be [disbarred from doing public works](#) by the United States Department of Labor or any state that has public works disbarment laws.
- Have a California Contractors State License, if one is required (non-construction contractors must provide their professional license number if one exists for their profession).

To learn more about Public Works Contractor Registration, please read the [Public Works Reforms \(SB 854\) fact sheet](#) and the [frequently asked questions](#). If you have additional questions about contractor registration, please [contact DIR](#) for assistance.

NOTICE INVITING PROPOSALS

NOTICE IS HEREBY GIVEN that proposals will be received from qualified firms for Design and Engineering Services for a new Water Well No. 14.

Responses to this Request for Proposal (RFP) will be accepted until February 16, 2026 at 3:00 p.m. Proposals received after this date/time will not be considered and will be returned unopened. It is the responsibility of the Consultant to ensure that any proposals submitted have sufficient time to be received by the Bighorn Desert View Water Agency (Agency) prior to this proposal due date and time.

Proposals shall be delivered BY USPS **mail**. Proposals shall NOT be sent via email, hand delivered, or sent by courier service.

BIGHORN DESERT VIEW WATER AGENCY

**REQUEST FOR PROPOSAL
DESIGN AND HYDROGEOLOGIC/ENGINEERING
SERVICES FOR NEW WATER WELL NO. 14**

NOTICE TO CONSULTANTS / PROPOSAL SUBMITTAL INSTRUCTIONS

1. **DUE DATE AND TIME:** Proposals for design and hydrogeologic/engineering services for construction of new Water Well No. 14, as described herein, will be received by the Agency until date and time shown below.

Issue Date: January 12, 2026

BDVWA Project Manager: Thomas Holliman, PE

Pre-Proposal Meeting (optional): January 27, 2026

Deadline for Requests for Information: February 6, 2026

Proposal Due Date: February 16, 2026

Presentation/interviews (optional): Will be notified if applicable

Anticipated Projected Award Date: March 10, 2026

Any changes to this RFP are invalid unless specifically modified by Agency and issued as a separate addendum document. Should there be any question as to changes to the content of this document; the Agency's copy shall prevail. It is the Consultant's sole responsibility to ensure that their proposal, inclusive of any or all addenda, is received by the Agency at the stated time and place. Any proposal received after the scheduled closing time for receipt of proposals will not be considered and will remain unopened.

Proposals must be submitted to the Agency as set forth in this Request for Proposal document. Unless otherwise specified, proposals submitted by any other method than that set forth herein will be disqualified.

SECTION I – PROJECT INTRODUCTION AND OVERVIEW

A. General Overview:

The Bighorn-Desert View Water Agency is a consolidated independent special district, formed in 1990, operating pursuant to the provisions of the Bighorn-Desert View Water Agency Law, California Water Code Appendix, Sections 112-1 et. Seq. The Agency is governed by a five-member Board of Directors, elected at-large from within the Agency's service area. The General Manager administers the day-to-day operations of the Agency in accordance with policies and procedures established by the Board of Directors. In addition to the General Manager, the Agency employs ten (10) full-time employees organized in two departments: Administration and Operations.

The Agency provides water service to approximately 1,977 active residential customers, 507 infrequent/inactive customers, and 102 bulk-hauling customers within its nearly fifty-two (52) square-mile service area, located in the eastern desert of San Bernardino County. The Agency encompasses the unincorporated communities in the county known as Flamingo Heights, Landers, and Johnson Valley.

The Agency operates eight deep wells and ten above-ground reservoir tanks, and maintains about 600 fire hydrants and 130 miles of water main pipelines. The Agency produces groundwater for its customers from the Ames-Means Valley and Johnson Valley Groundwater Basins. For reference, the "Basin Conceptual Model and Assessment of Water Supply and Demand for the Ames Valley, Johnson Valley, and Means Valley Groundwater Basins, April 2007", is attached as **Exhibit F**.

B. Purpose Of Request For Proposal:

The Agency is currently seeking proposals from qualified engineering and/or geological consulting firms for design and environmental services required for this project. The services would include the work described hereafter and detailed in Section III: Scope of Work and Technical Specifications.

The Agency has currently budgeted for a new well and the intent of this proposal is to provide hydrogeologic services related to one new budgeted well. Based upon the Agency's production wells in the area; Agency staff is expecting that the new well yield could produce sustainable flow rates ranging from 347 to 376 gallons per minute (GPM) which are currently being obtained from Well 8 and Well 9. Based upon Agency production wells in the area, the Agency staff identified that the water quality constituent concentrations are typically within the limits of acceptable California Drinking Water Standards.

The proposed new well that is the subject of this Request for Proposal (RFP) will be designed for use a production well to supplement the Agency's water supply. It is anticipated to be located either on Agency property near:

- the corner of Hondo Street and Highway 247 (see Figure 2), or
- near the intersection of Mira Street and Cherokee Trail (see Figure 3).

Based on the potential groundwater production, the Consultant will evaluate the Agency owned properties and provide an analysis of which is the preferred site for the new well. All work required to develop the recommended site will be included in the proposal. One of the

key deciding factors on selecting the Consultant will be the scope of work developed to achieve the Agency's objective. As such, the Consultant should not assume that the scope of work in this proposal is adequate to complete the project and should include all required work items for both office engineering, field investigations, and pilot well construction and testing for quantity and quality of potential well flows.

The Agency will select a qualified firm to perform the required services for the new well design generally based upon their qualified expertise, project understanding, and price and in accordance with the requirements set forth within this Request for Proposal.

It is the intent of the Agency to receive responses to the RFP and, if appropriate, conduct individual interviews in order to select a firm which, in the opinion of the Agency, is best suited to perform the required services. The purpose of this RFP, therefore, is to provide the Agency with the information necessary to select the most qualified firm while obtaining the best price for the requested services. It should be noted that the Agency reserves the right to award the contract for engineering services without interviews.

C. Selection Criteria:

The Criteria for firm selection will be based on, but not limited to, the following:

1. Firm's Qualifications and Experience with design of municipal production wells of the size and configuration specified herein.
2. Experience and qualifications of personnel assigned to perform the work.
3. Technical approach and understanding, preparation of project specific plans and specifications for construction of municipal production and/or monitoring wells in accordance to State of California Requirements as well as Agency Standard Specifications.
4. Fee and Payment Terms.
5. Exceptions Taken to RFP and Sample Agreement (attached).
6. Location of Consultant (i.e., proximity to Agency Sphere of Influence).

D. Evaluation And Selection Process:

1. Submittal Review: A committee will review and evaluate each submittal to determine if it meets the RFP requirements. Failure to meet the requirements set forth in the RFP will be cause for eliminating the Consultant from further consideration.
2. The technical proposals will be evaluated and ranked by a selection committee. The selection committee will establish the ranking order. The Agency will negotiate with the top-ranked firm, if deemed necessary by the selection committee. If agreement cannot be reached with the number one ranked firm, then the negotiations will be terminated, and the firm will be informed in writing. The number two ranked firm will then be invited to enter into the negotiations process.
3. The committee may interview the top-ranking Consultants. The Agency reserves the right to begin negotiations and enter into an agreement without interview or further discussions.

Description of Work	Weight of Score
Past performance and qualifications of the team members on similar projects	25%
Familiarity with capacity to handle all aspects of the work	20%
Ability to complete the project within the proposed time frame	15%
The proposed project approach, scope, manner, and thoroughness in which it is presented in the proposal	20%
Firm's experience, staff availability, stability, financial responsibility, and past performance on similar projects	20%

4. Short List: The selected candidates may be short listed to further refine the selection process.
5. The Agency reserves the right to, at their sole discretion, qualify and select the most qualified firm during the selection process or alternatively through the short-list process, conduct interviews to determine the most suitable candidate.

SECTION II – PROPOSAL REQUIREMENTS

The emphasis of the proposal should be on responding to the requirements set forth herein. In addition, Consultants need to demonstrate their capabilities, background, expertise, etc. in order for the Agency to effectively evaluate the proposals, and award to the company that provides the best value to the Agency based on the selection criteria in Section I. The Proposal should include, at a minimum, the following information:

A. Cover Letter

B. Executive Summary: to include a brief summary of the firm's origin, background, and size of the company, an organizational chart, the overall capabilities of the organization, appropriate licenses and certifications, and proximity of company's resources to the Agency's offices and facilities.

C. General Requirements:

The proposal should include the following:

1. An understanding of the project and approach to accomplish the work in a timely and acceptable manner.
2. A detailed description of the services to be provided based on the consultant's understanding of the project scope. Including the permits which will be required for the project, including but not limited to, CEQA, county permits, environmental permits with associated studies (i.e. bird, animal, plant).
3. A detailed work schedule for all work and time frame for items of work.
4. The individual who will have overall responsibility for the project shall be a Registered Hydrogeologist or Civil Engineer in the State of California.
5. A resume of the key people who will be working on this project, including specifics of experience on similar projects.
6. The proposal shall have a page limit of 25 pages, 8-1/2 X 11, 11 pt font, 1-inch margins, excluding appendices, tabs, and cover.
7. A not-to-exceed fee based on the services outlined in the Scope of Work MUST be submitted as a separate email submittal.
8. One (1) hard copy via USPS mail of the proposal shall be submitted to the Agency. It will be the Consultant's responsibility to verify that the proposal has been submitted and received by the Agency by the required due date. The Agency will not be responsible for lost or delayed submittals.

D. Statement of Qualifications:

1. Qualifications and Experience (Firm and Personnel) – a description of the company's expertise related to services requested and a full discussion of the company's recent experience directly related to providing Hydrogeological Services for Wells. For the size and scope herein provide resumes of key people to address experience and qualifications, educational background, and skills.

2. Knowledge and experience of hydro-geologic conditions within the Ames-Means Valley and the Johnson Valley Groundwater Basins.
3. Experience in working with USDA funding requirements for rural water projects.
4. Availability – Briefly describe your firm’s and personnel’s ability to meet the Agency’s needs in a consistent and timely manner.
5. References (Exhibit A) – list three (3) former municipal (preferred) or private clients for whom comparable services have been performed within the last five years. Include the name, mailing address, telephone number, and email address of each client’s principal representative.
6. List of Subcontractors (Exhibit B) – a description of any subcontract arrangements that would be utilized for this discipline of work. Include a full description of the subcontractor’s experience and personnel.

E. Consultant Business Information (Exhibit C)

F. Additions, Deletions, and/or Exceptions (Exhibit D): compliance with the Agency’s contractual terms and/or RFP requirements. The Consultant shall note any additions, deletions and/or exceptions to the contractual terms and/or RFP requirements. If there are no exceptions taken, please note in the form: “There are none.”

G. Project Fee Proposal (Included in a separate submittal titled “Project Fee Proposal – Bighorn Desert View Water Agency New Water Well No. 14”): said fee schedule shall include hourly rates; rates for all sub-consultants, and percentage markup of reimbursable expenses, if any shall be included. The rates shall be valid for the term of the contract. In the Project Fee Proposal, include the following information:

1. A detailed man-hour estimate by personnel classification for the major portions of the work broken down through each of the task, milestone reports and/or plans. The fee breakdown with identify all costs of the preliminary design report (PER) per USDA requirements, see Exhibit G for the USDA, and the balance of the design services and construction support services. If selected, the Consultant will be authorized to complete the PER. Then upon approval of the PER the remaining fee will be authorized.
2. Fees for any subcontractors.
3. A total not-to-exceed fee estimate based on services outlined in Scope of Work.
4. The method of compensation shall be based on a time and expense basis subject to a not- to-exceed amount for the effort to complete the project.

The Agency reserves the right to withhold award of contract for a period of ninety (90) days following RFP opening. All proposals received are considered firm for that 90-day period.

A contract incorporating the terms and conditions contained herein will be sent to the successful Consultant. Any additional terms and conditions requested or comments by Consultant must be submitted with the proposal (**Section F: Additions, Deletions, and/or Exceptions**) and will be considered as part of the selection/negotiation process.

Any questions as to the meaning of the scope of work and/or technical specifications or other pre-proposal documents must be submitted in writing and shall be directed to Thomas Holliman, Agency Representative Engineer, at (909) 573-6802, tomh@trholliman.com who will provide instructions for submitting requests. Any and all such interpretations and any supplemental instructions will be sent to all prospective Consultants not later than that date set forth in Notice to Consultants. All addenda so issued shall become part of the contract documents. Under no circumstances may the Consultant contact any other department or individual for clarification or interpretation of any requirements herein.

The Agency reserves the right to reject any or all proposals, either separately or as a whole and to waive any informality in a proposal or to accept any proposal presented which it deems best suited to the interest of the Agency and is not to be bound to accept the lowest price.

The cost for developing the proposal is the sole responsibility of the Consultant. All proposals submitted become the property of the Agency. If any pages are deemed as classified or proprietary those pages should be individually marked confidential or proprietary.

At the time of the opening of proposals each Consultant shall be presumed to have read and be thoroughly familiar with the RFP and proposal requirements (including all Addenda).

Be advised that all information contained in proposals submitted in response to this solicitation may be subject to the California Public Records Act (Government Code Section 6250 et seq.), and information's use and disclosure are governed by this Act.

H. Additional Information:

The Agency shall not be liable for any pre-contractual expense incurred by the Consultant. The Consultant shall have and maintain throughout the contract period, insurance as required by the sample agreement attached acceptable to the Agency.

The Agency reserves the right to withdraw this Request for Proposal at any time and makes no representations to this Request for Proposal. The Agency reserves the right to postpone consideration of the proposals and to reject any and all proposals without indicating any reasons, therefore.

SECTION III – SCOPE OF WORK AND TECHNICAL SPECIFICATIONS

The project will consist of two phases. Phase 1 will evaluate the two proposed well sites, recommend one for the water well, then design and construct a pilot test well to obtain data for the production well. Phase 2 will include the well design and construction management of the new production well.

I. Project Coordination:

1. Project kick-off meeting with Agency.
2. Monthly coordination meetings with Agency.
3. Monthly report summarizing project budget and schedule. Provide one (1) electronic copy (smart pdf).
4. Presentations to Agency staff at the 30%, 60% and 100% design phases to discuss the project, construction schedule, costs, and constraints.

J. Phase 1 – Well Site Selection and Construction of Pilot Well

Task 1.1 - Well Site Selection: Consultant shall review suitability of two sites currently owned by the Agency for a new water well including access for drilling, laydown, and testing. The Consultant shall identify the need for sound attention. The location of the two potential well sites are as follows:

- Site 1 - Located approximately 280 feet east of Hondo Street and Highway 247. The site is adjacent to a commercial parcel with an existing business. (see Figure 2).
- Site 2 - Located on Mira Street approximately 450 feet east of Cherokee Trail (see Figure 3).

Consultant shall provide a technical memorandum comparing the two potential well sites with a recommendation for which site should be used by the Agency for the new well. The BDVWA will be pursuing grant and/or loan funding for the project through the USDA, Rural Development, Rural Utilities Service. As a result the Preliminary Engineering Report (PER) for the project must strictly follow the requirements as shown in Exhibit G. Because of the project parameters it is expected that the Well 13 project will require that the PER for the project follow Option 2 – WEP Specific Per Template. The Consultant will include in the description of their experience any past projects which included USDA funding.

Deliverable: Technical memorandum identifying recommended well site with justification.

Task 1.2 – Construction of Pilot Well: Upon approval from the Agency for the selected site, the Consultant will:

- a. Design and install pilot well. Determine potential production capacity.
- b. Perform well draw down study. The study to include water quality testing. The Consultant shall make all arrangements for the testing and the Agency will pay for the cost of the testing.
- c. Identify recommended location for new well.

- d. Site Security
- e. Site Drainage
- f. SCADA
- g. Groundwater Treatment – if required.

Deliverables: Completed pilot well with all associated test and production data necessary to complete final design of the new water well. Data from pilot well construction and testing will be provided to the Agency as a technical memorandum.

Task 1.3 - Environmental:

The Consultant shall identify and obtain any and all permits that will be required for the project on the Agency's behalf to the permitting agencies. Consultant shall incorporate comments from the permitting agencies and revise the contract Documents, as necessary. Anticipated permits that the Consultant shall obtain for construction of the new water well may include, but not be limited to, the following:

- a. California Environmental Quality Act (CEQA) – Agency Staff identified that a Mitigated Negative Declaration (MND) and an Initial Study is required and that said MND and associated Initial Study shall be prepared and filed by the Consultant.
- b. Air Quality Management Agency (AQMD).
- c. Drilling permit for San Bernardino County Division of Drinking Water.
- d. Western Joshua Tree Census and Incidental Take Permit.
- e. Conduct bird, plant, and animal surveys as well as any other requirements.

K. Phase 2 – Design of Well and Pumping Facilities

Task 2.1 Preparation of plans and specifications for construction of new water well

- i. **Scope of Work:** Prepare complete bidding plans and specifications for the construction of the well, pumping facilities, surface items such as sun shade, electrical panel, access roadway or driveway, security fencing, SCADA controls, noise attenuation, storage, and all other work required for a final complete groundwater production well in accordance with Agency and applicable regulatory agency requirements.. This will also include:
 - Conduct preliminary engineering and field investigations, including background data review and geotechnical investigation.
 - Complete a Basis of Design technical memorandum with preliminary site layout and positioning of facilities.
 - Complete a set of improvement plans for equipping the newly constructed well and a complete set of written construction specifications in Construction Specification

Institute (CSI) format for equipping the well and all above-ground appurtenances. The Consultant shall utilize the Agency's existing "front-end" bidding documents and supplement the Agency's existing technical specifications as required. Specifications shall include the Agency's current technical provisions. Include at a minimum the following:

- Cover Sheet
 - Bid forms including insurance and bond forms
 - General Provisions
 - Special Provisions
 - Copies of all permits
 - Grading and drainage (including existing and proposed elevations extending 25 feet beyond the property boundaries)
 - Site development plan
 - Architectural and Structural - plans and details
 - Security fencing
 - Shade structure
 - Access road or driveway from roadway to well site
 - Mechanical - plans and details
 - Electrical - plans and details
 - Instrumentation and controls (SCADA) integration. Consultant will be required to work with the Agency's SCADA contractor, Forshock, to complete integration with existing SCADA system.
 - Operation memorandum and schematic diagram
- ii. The Consultant shall submit contract documents to SWRCB DDW and San Bernardino County Department of Environmental Health for review at the 70% design level. Comments from all jurisdictional agencies shall be addressed and/or incorporated into the 100% design submittal.
- iii. The Consultant shall submit three (3) sets of the plans and specifications and two (2) sets of the construction cost estimate and calculations at the 70%, 90% and 100% design levels and additional sets to other agencies as required. Also, one (1) electronic copy of all documents shall be submitted along with the required hard copies at each design level. Comments from the 100% design submittal shall be incorporated into the final design submittal consisting of one set of specifications and associated figures and/or plans signed by a licensed hydrogeologist or civil engineer. One (1) set of the final cost estimate, calculations and design and specification files shall also be provided electronically (AutoCAD, smart pdf, word, and excel) to the Agency.

Task 2.2 Services during bidding:

The Consultant shall perform the following services during bidding:

1. Assist the Agency with questions and Requests for Information from qualified contractors. Prepare Bid Addendums, if necessary.
2. The Consultant shall attend the construction pre-bid meeting and provide technical support to Agency staff related to immediate contractor questions during the pre-bid

meeting.

3. Respond to any questions from contractors during the bidding period.
4. Be present at bid opening, tabulate bids, evaluate bids and provide a recommendation for award.

Task 2.3 Support services for construction:

1. The Consultant shall assist the Contractor with questions related to Bid Documents and Specifications.
2. The Consultant shall support the Agency in accordance with specifications during construction.
3. Prepare up to two (2) addenda which will be distributed by the Agency.

Task 2.4 Field technical support:

Provide hydrogeological field technician support for well drilling activities including;

1. Formation sampling and logging.
2. Well bore hole and ream hole electronic logs and caliper and deviation logs observation.
3. Well casing installation and gravel packing.
4. Well disinfection activities.
5. Well mechanical development observation.
6. Well video observation and comments.
7. Well development and test pumping.

Task 2.5 Construction Inspection and Close-out:

1. Provide Construction Management, Inspection, and oversight of Testing of equipping of surface facilities
2. Complete final as-built drawings and a written operations and maintenance manual for the newly equipped well. (Word and .pdf)
3. Finalization of the Drinking Water Source Assessment

EXHIBIT C: CONSULTANT'S BUSINESS INFORMATION

All Consultants shall submit the information as requested below.

1. Length of time your firm has been in business: _____

2. Length of time at current location: _____

3. List types and business license number(s): _____

4. California State Contractor's License number: _____

5. Names and titles of all officers of the firm: _____

6. Is your firm a sole proprietorship doing business under a different name?
YES or NO

7. If yes, please indicate sole proprietorship name and the name you are doing
business under: _____

8. Please indicate your Federal Tax Number: _____

9. Is your firm incorporated? YES or NO

10. Name and remittance address that will appear on invoices: _____

11. Physical Address: _____

Price(s) shall include **all** labor, equipment, materials, transportation, overhead, travel, profit, insurance, sales and other taxes, licenses, incidentals, and all other related costs necessary to meet the work requirements.

Your signature on this document, should you be awarded the contract as defined in this RFP, signifies that you have fully read and understood this proposal and will comply with all specifications, conditions, unit prices, terms, and delivery of the proposal unless otherwise

noted in the "exceptions" portion of the proposal.

Name of Consultant (Firm): _____

Title: _____

Authorized
Signature: _____
